

Tharaburi Resort, Sukhothai, a picturesque 4-star boutique resort is conveniently situated outside of the city wall of Sukhothai ancient city with serene environment. The resort is about 1 kilometer from the Unesco World Heritage Site, easily by walking or bicycle and explore the ancient city, ceramic village and local art and crafts.

Tharaburi was designed by Supakit Tharawiwat, one of the owners who studied architecture and interior. The Thai and Oriental cultures serve as design inspiration for the Tharaburi. The concept of lobby architecture design is Thai Buddhist ordination hall which is adorned with chandelier, mosaic wall art, Buranakata painting (Buranakata is the word in Pali that means happiness, peaceful, wealthy and wisdom. Buranakata is generally called flowerpot, a pot with beautiful pattern that is used for worshipping Buddha Image and holy things), using the antique Chinese carved wood panel screen, and the flooring design idea came from Sukhothai antiquities pattern.

The 13 rooms and suites have its own magnificent theme décor and color. Some guestrooms are decorated as Thai contemporary style and some of them is decorated as modern oriental style, with a mix of contemporary décor and exquisite furnitures, all with private terraces with lotus pond and lush views of tropical garden.

The inspiring architecture and décor idea of our restaurant named “Tharabar” from owner family’s antique collectibles such as Indian door, coloured glass window, Chinese carved wood panel screen and oriental furnitures.

In addition, we grow some organic salad greens and herbs for our guests. We don’t use chemical fertilizers, pesticides or hormones in order to help protect environment.
